

## Applications

- ☒ Marinas
- ☒ Port areas
- ☒ Water bodies

# OBIOFIX P HYDROCARBONS

Bio-treatment for water body

## Packaging

1 x 25 kg

## Characteristics

**Aspect:** Grey powder

**Odor:** na

**pH:** 7,3

## Compliance

**Norm:** AFNOR NF X 42-040

**Directive:** 2000/54/CEE

## Dosing

### Maintenance

OBIOFIX P HYDROCARBONS	Harbour
200 to 400 kg	Ha3

### Choc action

OBIOFIX P HYDROCARBONS	Harbour
400 to 600 kg	Ha3

## Biotechnology

Through its marine support, **OBIOFIX P HYDROCARBURES** biodegrades oil.

Fresh or salty waters are often contaminated by oil stains present on the surface. **OBIOFIX P HYDROCARBURES** flows and eliminates oil suspended on the water and rebalances the aquatic environment.

## Advantages

- Unique biotechnology
- Degrade hydrocarbons on the surface
- Kill odour
- Promote the gradual clarification of water
- Support the balance of aquatic environment
- Safe for users et equipment
- 100% natural and biodegradable
- Neutral pH

## Direction for users

- ① **Avoid application during windy day.**
- ② **Powder application**
  - ① Apply **OBIOFIX P HYDROCARBONS** on surface with a manual spreader
- ③ **Mixed with water (Dilution: 10%)**
  - ① Stir the solution continuously and spread using a sprayer
